

TSQ Report to Plenary 8 September 2005 Page 1

- Meeting 5-6 September

- UN/CEFACT Core Components
 - Amsterdam comments and response from TBG17
 - Seeking more insight into SAP use of CCTS
 - Decided to create EDIFICE Core Components using CCTS method but **not** based on UN/CEFACT Core Components

- Data Maintenance Requests to UN/CEFACT and response
 - We submitted DMRs for EDIFICE Codes to repair clashes with UN/EDIFACT directories
 - Some rejected and need review
 - It is not possible to get other changes processed on EDIFACT Directories:
 - No new message requests are not being accepted
 - We will not upgrade EDIFICE MIGs to current directories
